OBJECTIVE

Passionate B.E. Computer Science and Engineering student with hands-on experience building AI-powered and full-stack applications. Seeking a Software Development Internship to apply programming skills, contribute to real-world projects, and grow as a developer.

TECHNICAL SKILLS

- Programming: Java (Basic), C (Basic), Python (Working knowledge from hackathon project)
- Frontend: HTML, CSS, JavaScript, React.js, Streamlit
- Backend: Firebase Authentication, Firebase Hosting, Firebase Firestore (Basic)
- Data & ML: Pandas, NumPy, Xarray, Scikit-Learn, TensorFlow (Basic)
- Database: MySQL (Basic), Firebase Firestore
- Tools: Git, GitHub, VS Code, Firebase, Streamlit Community Cloud

PROJECTS

Bharath Climate Twin v2.0 — AI-Powered 5-Layer Climate Intelligence System *(Team Lead)*

Bharatiya Antariksh Hackathon 2026 (ISRO/H2S)

Live Project: <https://fenrirclimate-vh57jrgz85bnnxokc6xrz.streamlit.app/>

- Led a 3-member team (Team FENRIR) to design and build a real-time climate digital twin for India that ingests, processes, and visualizes complex meteorological data.
- Architected a 5-layer climate analysis engine covering upper atmosphere, atmospheric conditions, cloud layer, precipitation, and surface conditions.
- Built a Heat-Seeking Rain GPS module and a real-time interactive India map with live weather feeds for major cities.
- Developed an AI Climate Assistant using Scikit-Learn and TensorFlow, trained on IMD meteorological datasets.
- Processed and engineered data pipelines using Pandas, NumPy, and Xarray; codebase is 97.4% Python.
- Deployed a live, fully operational prototype on Streamlit Community Cloud with a near-zero-cost, open-source infrastructure (~98% cost efficiency).
- Managed version control and collaboration using Git and GitHub.

GFitness — Fitness Web Application

Live Project: <https://gfitness-ec728.web.app>

- Developed a responsive fitness web application using React.js.
- Implemented Firebase Authentication for secure user login.
- Used Firebase Firestore for storing application data.
- Built BMI and Nutrition Calculators for user health tracking.
- Deployed the application using Firebase Hosting and managed source code using Git and GitHub.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering

R.M.D. Engineering College, Gummidipoondi, Tamil Nadu | Currently: 3rd Year
